OBJECTIVE

I'm looking for full-time work in the IT and telecommunications industry.

PERSONAL STATEMENT

After completing a 17-week Full Stack Web Development program at Dev Academy, where I gained hands-on experience working in team environments to build full-stack applications, I am now eager to explore opportunities that align with my passions for social media, technology, and visual storytelling.

I am actively seeking a full-time position that supports my career aspirations and allows me to apply my skills in web development and creative problem-solving. I am a fast and adaptable learner, capable of efficiently completing tasks or quickly acquiring new skills when needed. While I enjoy independent work, I also excel in collaborative environments, maintaining a friendly and professional approach with colleagues and customers.
